ii. Executive Summary of the Annual PHA Plan

[24 CFR Part 903.7 9 (r)]

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

Executive Summary

The following is the Annual Plan for the FFY 2008 and the five year plan for the years 2009-2012 for the Housing Authority of the City of San Marcos, Texas whose fiscal year commences on October 1, 2008.

Physical and Organizational -The Housing Authority of the City of San Marcos, Texas (the *Housing Authority*) administers 287 units of Public Housing and 206 section 8 voucher/certificates. The Public Housing units are dispersed in five (5) unique and separate projects of duplexes and row homes and twenty-six (26) single family homes. The Housing Authority owns and operates 60 units of sight based section 8 units (Spring town Villa). The Housing Authority has partnered with a private developer and owns 188 unit LITC units (Mariposa Apts.)

The Board of Commissioners, consisting of five members appointed by the Mayor, oversees the Housing Authority. The Housing Authority was established in 1950.

Funding Sources - The Housing Authority has two primary sources of funding: *operating and capital grant*. With public housing funding being revised, the Housing Authority's future funding amounts could be substantially altered. The figures in the Plan do not reflect any impact from upcoming changes in funding formulas. At the end of fiscal year 2005, operating reserves are estimated to be \$ 320,000.00. The Housing Authority expects to retain these reserve levels throughout the five year planning period.

Strategy Statement- The Housing Authority of the City of San Marcos, Texas currently has \$ 11.89 million in un-funded overall physical needs. This represents a slight increase of \$ 2.9 million from previous assessments as a result of the utilization of new technology for improved safety, new government criteria as presented by REAC and function as well

as the effects of inflation and the tight construction market. The vast majority of these needs are a result of normal deterioration and obsolescence at a 40-year-old project consisting of 125 dwelling units. Additionally, another 38-year-old project of 100 dwelling was partially renovated under the CIAP program, however. 16 dwelling units will require renovation under this program due to previous inadequate funding. Minor improvements and minor upgrades of systems only are required at the other two projects as a result of recent renovation activities.

Pursuant to current guidelines and policies, items affecting health and safety are given the highest priority. These include items related to specified initiatives such as accessibility to the physically challenged and the family self-sufficiency (FSS) program. Priorities with respect to physical needs are based on assessed actual conditions.

Management needs currently being met include family self-sufficiency activities and fiscal management needs associated with the scope of overall needs and the diversity of programs.

Policy & Program Initiatives - The Housing Authority has instituted revised policies to better reflect the spirit of the Quality Housing and Work Responsibility Act of 1998 (QHWRA) and the regulations governing its implementation. Examples of which are demonstrated in the Community Service / Volunteer Service Policy

Description of Resident Partnership and Summary of General Issues - The Housing Authority believes that it has developed a strong working relationship with the residents of the Housing Authority through the Residents Council (the RC). The RC has held residents meetings at each of the projects; provided and compiled resident surveys; informally meet with the Executive Director and staff throughout the year; and formally meet with representatives of the Housing Authority. The concerns of the RC have been integrated into this plan. It is anticipated that the RC will continue to provide valuable input into the Capital Grant Program as it has during the Comprehensive Grant Program.

Home Ownership Initiatives - The Housing Authority through its vehicle the San Marcos Reinvestment Corporation in partnership with the City of San Marcos, Texas and other private corporations are actively pursuing a plan for home ownership for low income persons
